

DOSOMAT

through innovation

DOSOMAT 10
with automatic changeover
to another cup size

Advantages

Outstanding features are:

- Quick changeover to another cup size
- The possibility to run a variety of different cups
- Variety of possibilities to run different cups
- Simple and easy operation
- Easy cleaning (compliance with HACCP / EHEDG) through a self-draining design and a minimum of movements through the machine table
- Dosing systems without dirt traps
- Hose-down execution
- Optimized CIP/SIP systems
- Laminar airflow cabinet in pharmaceutical execution
- Sterilisation of packaging materials to the latest state of art (for rotary and for inline machines)
- Energy conduits (for air, power, water) are led through the corner pillars

Packaging material

Widely differing packaging materials can be handled by the DOSOMAT machines; the cups or lids may be of paper, plastic, coex, aluminium, tin or glass.
